15th November 2018

Trial distributorship of 22 VEK LLC for Oleo International industrial gas-hydraulic buffers.

For the period of 15th November 2018 to the 14th November 2019 Oleo International will grant 22 VEK LLC of St. Petersburg, Russia a 30% discount off its current list price for Oleo industrial application buffers. This special distributor-level discount will be offered on buffers that 22 VEK LLC agrees to only resell within the region of Russia. Oleo International agrees to not actively solicit orders from users of industrial buffers in Russia during this time period. If Oleo International receive contact from users in Russia for industrial buffers, Oleo International agree to forward these directly to 22 VEK LLC.

22 VEK LLC will use its best endeavours to promote the distribution and sale of Oleo products in Russia.

After the end of this trial period Oleo International and 22 VEK will evaluate the success of the relationship and decide whether to put into place a longer lasting relationship between the two companies.

Oleo International look forward to a mutually beneficial relationship with 22VEK for this coming year.

Sincerely,

Ryan Yeend

Business Development Manager – End Stops
